access for fine
tuning adjustments

Uses low cost
disposal ink
cartridges

State of the art
INKAP printhead

Dual control air
cylinders

GC-220, 240, 420

RECIPROCATING WET INK IMPRINTERS

Greydon introduces the **GC-220**, **GC-240**, and the **GC-420** line of Reciprocating Wet Ink Imprinters. Precision built, these printers offer the highest quality print along with strength and durability. The dual flow controls and large air cylinder provide for a smooth consistent stroke which will not be affected by fluctuations in air pressure. In addition the GC220 features the remarkable INKAP printhead which monitors ink absorption and print consistency while extending cartridge life. The GC-240 and GC-420 utilizes a special ink and pad that takes print quality from this technology to a complete other level.

GREYDON
I N C

Service and Supplies

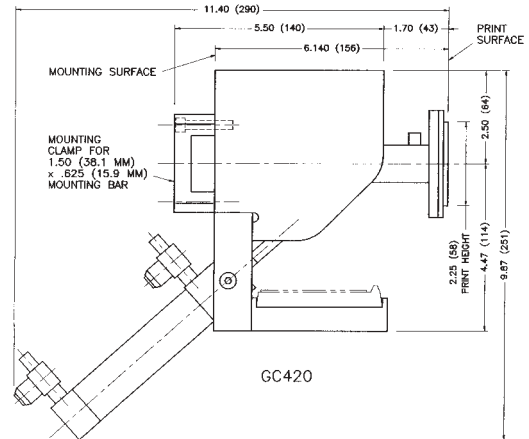

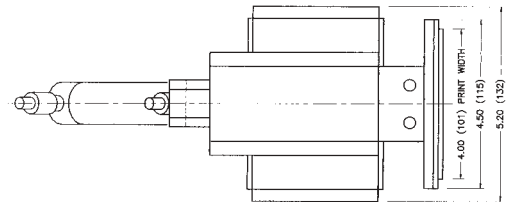

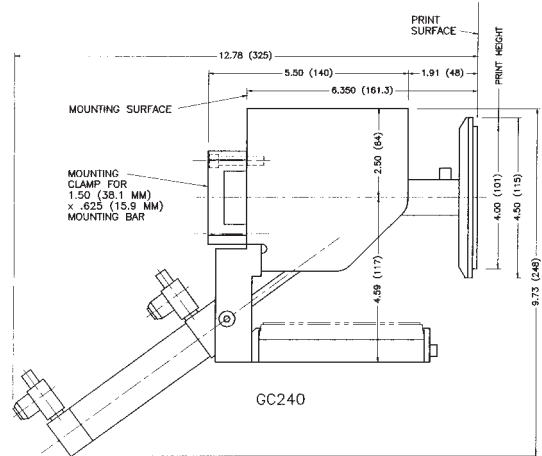

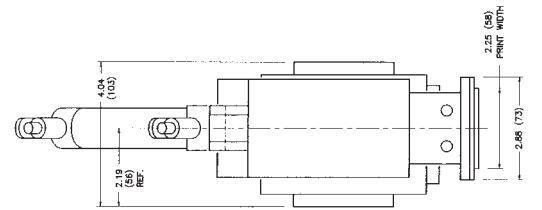

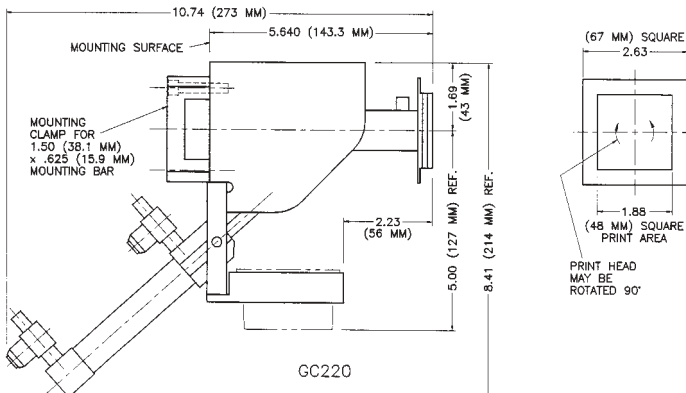

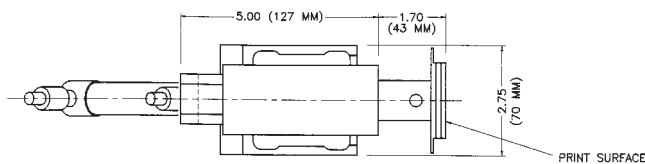

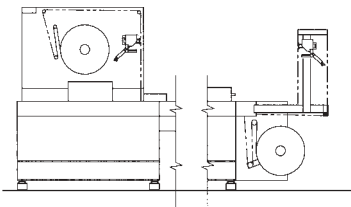

Greydon offers a disposable ink cartridge system for all our coders along with a complete range of Ribbed type. Our parts department provides immediate access to a

complete inventory of replacement parts and accessories. In addition, our Technical Service Department is always on call to help troubleshoot problems and help deliver fast reliable service.

Greydon's innovative involvement in the packaging industry has kept us in touch with the changing needs of our customers. In response to those needs we have put together a complete line of high quality, in-line printers, offering you a variety of solutions for all your imprinting applications.
